

Hong Kong Institution of Physicists in Medicine
Training Course on Anatomy

Training Objective

The main objective of this course is to enable students to recognize the various gross structures and their relationship in the human body on medical images. After the introductory lectures, a regional approach will be adopted in the teaching with the aid of medical images.

Course Content

- Introduction to anatomical terminology and human body planes
- Overview of the following body systems and related features in radiology and radiotherapy:
 - Digestive system
 - Respiratory system
 - Cardiovascular system
 - Lymphatic system
 - Urinary system
 - Reproductive system
 - Endocrine system
 - Nervous system
 - Musculoskeletal system
 - Cross-sectional imaging anatomy of the head & neck, thorax, abdomen and pelvis

Date, Time and Venue:

The course will be held on:

Date	Time
27 Aug 2016	2:00pm-6:00pm
03 Sep 2016	2:00pm-6:00pm
10 Sep 2016	2:00pm-6:00pm

Duration of course:

12 hours lectures, Q&A

Venue:

Lecture Room 7A, 7/F, Li Shu Pui Block
Hong Kong Sanatorium & Hospital
2 Village Road
Happy Valley
Hong Kong Island.

Speaker

Dr. Maria Law, Ph.D.
Consultant (Medical Imaging & Radiotherapy)
Medical Physics and Research Department
Hong Kong Sanatorium & Hospital
Happy Valley

Target participants:

Physicists and biomedical engineers who have not studied anatomy before.

Assessment:

To be confirmed.

Accreditation:

This course has been approved by the Hong Kong Institution of Physicists in Medicine.

Teaching Medium

The course will be conducted in English.

Tuition Fee:

Nil

Enrollment:

This course is open to HKIPM members only.

Completed registration form shall be sent to Mr. Tony Kong, Member of Education Committee of the Hong Kong Institution of Physicist in Medicine at the address give below:

Mr. Tony Kong
Medical Physics & Research Department
8/F, Li Shu Fan Block
Hong Kong Sanatorium & Hospital
2 Village Road
Happy Valley
Hong Kong Island.

Closing Date for Application:

Friday 26 Aug 2016
